Theology of the Body

with

**Fr. Thomas J. Loya
STB., MA.**

Father Loya and Tabor Life Institute approach the Theology of the Body topic by first laying a foundation of the actual Catholic “ethos”, in other words, how to see and understand all things, especially human sexuality “sacramentally”. Father Loya presents the theology of the body in a particularly comprehensive way by helping audiences to ‘put on their sacramental-liturgical worldview glasses’. This will help us see how our human experience, Church teaching and the liturgy are all woven together and how we apply this vision to all of life. This is the theology of the body.
